

SAFETY DATA SHEET

[In accordance with the criteria of Regulation No 1907/2006 (REACH) and Regulation (EU) 2015/830]

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name: **MITES ALIMENTAIRES PIEGE ATTRACTIF - ETAMINE DU LYS PARE-INSECTES**

Substances which influenced classification: not applicable.

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: Pheromone adhesive trap to monitor food moth. For indoor use.

Uses advised against: not determined.

1.3 Details of the supplier of the safety data sheet

Producer: **COMPTOIR DES LYS**

Address: **ZA les douets jaunes 49360 SOMLOIRE - FRANCE**

Telephone/Fax number: **+33 (0) 2 41 55 66 75**

E-mail address for a competent person responsible for SDS: office@eipolska.pl

1.4 Emergency telephone number

112 (emergency number), 998 (fire brigade), 999 (medical emergency) or +48 22 262-86-46 (Mon-Fri, 9-17).

Section 2: Hazards identification

2.1 Classification of the substance or mixture

The mixture does not meet the criteria for classification in accordance with Regulation (EC) No. 1272/2008.

The monitoring trap is not a biocidal product.

2.2 Label elements

Hazard pictograms and signal words

Not applicable.

Hazard statements

Not applicable.

Precautionary statements

P101 If medical advice is needed, have product container or label at hand

P102 Keep out of reach of children.

2.3 Other hazards

Mixture do not meet criteria for PBT or vPvB in accordance with Annex XIII of Regulation REACH.

Section 3: Composition/information on ingredients

3.1 Substances

Not applicable.

3.2 Mixtures

SAFETY DATA SHEET

Product in the form of the flat traps the paper coated with a layer of adhesive covered with a protective paper. The product does not contain components classified as hazardous in the quantities required to mention in the safety data sheet.

Section 4: First aid measures

4.1 Description of first aid measures

Skin contact: wash the contaminated skin with plenty of water with soap and rinse it well. Consult a doctor if disturbing symptoms appear.

Eye contact: wash eyes with plenty of running water with the eyelid hold wide open. Protect the non-irritated eye and remove contact lenses. Consult a doctor if disturbing symptoms appear.

Ingestion: exposure does not normally occur by this route

Inhalation: no negative health effects are expected.

4.2 Most important symptoms and effects, both acute and delayed

No reports of adverse effects or critical hazards with proper use of the product.

4.3 Indication of any immediate medical attention and special treatment needed

Physician makes a decision regarding further medical treatment after thoroughly examination of the injured.

Section 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media: foam, extinguishing powder, water spray. Adjust fire fighting measures to the surrounding materials.

Unsuitable extinguishing media: water jet – risk of the propagation of the flame.

5.2 Special hazards arising from the substance or mixture

During the fire, the product may produce hazardous fumes, containing such as carbon oxides. Do not inhale combustion products, they can be dangerous for human health.

5.3 Advice for firefighters

Personal protection typical in case of fire. Do not stay in the fire zone without self-contained breathing apparatus and protective clothing resistant to chemicals. In case of fire, cool down the endangered containers with water spray, from a safe distance. Collect the extinguishing water.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Apply personal protection measures.

Limit the access for the outsiders into the breakdown area, until the suitable cleaning operations are completed. Make sure that removing breakdown is execute by trained personnel only.

In case of large spills, isolate the exposed area.

6.2 Environmental precautions

Do not empty into drains, surface water and groundwater. In case of large spills, prevent the product from spreading into the environment. Notify relevant emergency services if necessary.

6.3 Methods and material for containment and cleaning up

Collect mechanically released product. Treat it as waste or pass to re-use it.

SAFETY DATA SHEET

6.4 Reference to other sections

Appropriate conduct with waste product – see section 13.

Section 7: Handling and storage

7.1 Precautions for safe handling

Handle in accordance with good occupational hygiene and safety practices. Before break and after work wash hands carefully. When handlings do not eat, drink or smoke. Ensure adequate ventilation at the workplace.

7.2 Conditions for safe storage, transport and use, including any incompatibilities

Keep only in original, tightly closed containers, in a dry area. Keep away from food, beverages or animal feed. Recommended storage temperature: +5 ÷ +25°C. Avoid water and moisture. When stored under the recommended conditions, product retains the effectiveness for 3 years from the date of manufacture.

7.3 Specific end use(s)

No information about the applications other than those specified in subsection 1.2.

Section 8: Exposure controls/personal protection

8.1 Control parameters

Product does not contain any components with occupational exposure limit values at working place at Community level (legal basis: Dz. U. 2014, poz. 817).

8.2. Exposure controls

Use the product in accordance with good occupational hygiene and safety practices. Do not eat, drink and smoke during the work. Before break and after work wash hands carefully. Ensure adequate ventilation.

Hand and body protection

Not required under normal conditions.

Eye/face protection

Not required under normal conditions.

Respiratory protection

Not required under normal conditions.

Environmental exposure controls

Prevent large amounts of product from reaching ground water, sewage, waste water or soil.

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

physical state/appearance:	solid/ Paper trap covered with glue
colour:	not determined
odour:	does not show
odour threshold:	not determined
pH:	not applicable
melting point/freezing point:	not applicable
initial boiling point and boiling range:	not applicable
flash point:	above 225°C
evaporation rate:	not applicable

SAFETY DATA SHEET

flammability (solid, gas):	not flammable
upper/lower flammability or explosive limits:	not determined
vapour pressure:	not applicable
vapour density:	not applicable
density:	not determined
solubility(ies):	insoluble in water
partition coefficient: n-octanol/water:	not determined
auto-ignition temperature:	not determined
decomposition temperature:	not determined
explosive properties:	not display
oxidising properties:	not display
viscosity:	not applicable

9.2 Other information

No data.

Section 10: Stability and reactivity

10.1 Reactivity

Product is not reactive. Product does not undergo a dangerous polymerization.

10.2 Chemical stability

The product is stable under normal conditions of use and storage.

10.3 Possibility of hazardous reactions

Not known.

10.4 Conditions to avoid

Avoid wetness.

10.5 Incompatible materials

Not known.

10.6 Hazardous decomposition products

Not known.

Section 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity

Based on available data, the classification criteria are not met.

Skin corrosion/irritation

Based on available data, the classification criteria are not met.

Serious eye damage/irritation

Based on available data, the classification criteria are not met.

Respiratory or skin sensitisation

Based on available data, the classification criteria are not met.

Germ cell mutagenicity

Based on available data, the classification criteria are not met.

Carcinogenicity

Based on available data, the classification criteria are not met.

SAFETY DATA SHEET

Reproductive toxicity – one time exposure

Based on available data, the classification criteria are not met.

Reproductive toxicity – repeated exposure

Based on available data, the classification criteria are not met.

Aspiration hazard

Based on available data, the classification criteria are not met.

Section 12: Ecological information

12.1 Toxicity

Product is not classified as hazardous for the environment.

12.2 Persistence and degradability

Not determined.

12.3 Bioaccumulative potential

Not expected to bioaccumulate.

12.4 Mobility in soil

No data.

12.5 Results of PBT and vPvB assessment

This product does not contain components that meet the criteria PBT or vPvB.

12.6 Other adverse effects

Product does not have any influence on global warming and destruction of the ozone layer.

Section 13: Disposal considerations

13.1 Waste treatment methods

Disposal methods for the product: do not empty into drains.

Small amounts dispose of in accordance with current regulations. The waste code should be given at the place of manufacture.

Disposal methods for used packing package to the authorized company. Only completely purified packaging can be sent for recycling. Disposable packaging should be disposed of for recycling.

Union legal basis: Directive 2008/98/EC, 94/62/EC.

National legislative acts: Dz. U. 2013, poz. 21 with later changes: Dz. U. 2013, poz. 888 with later changes.

Section 14: Transport information

14.1 UN number

Product is not classified as dangerous during transport by land, sea or air.

14.2 UN proper shipping name

Not applicable.

14.3 Transport hazard class(es)

Not applicable.

14.4 Packing group

Not applicable.

SAFETY DATA SHEET

14.5 Environmental hazards

None.

14.6 Special precautions for user

Not necessary.

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code

Not applicable.

Section 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture.

The act dated 25 February 2011 on chemical substances and their mixtures (Journal of Laws no. 63, item 322 with further amendments), Resolution of the Minister of Labor and Social Policy dated 6 June 2014 on threshold limit values (Journal of Laws of 2014, item 817 with further amendments).

The act on waste dated 14 December 2012 (Journal of Laws of 2013, item 21 with further amendments).

The act dated 13 June 2013 on packaging and packaging waste management (Journal of Laws of 2013, item 888 with further amendments), the Resolution of the Minister of Environmental Protection dated 9 December 2014 on the list of waste (Journal of Laws of 2014, item 1923).

The Resolution of the Minister of Economy dated 21 December 2005 on essential requirements for personal protective equipment (Journal of Laws no. 259, item 2173).

The Resolution of the Minister of Health dated 2 February 2011 on studies and measurements of factors harmful to health in the workplace (Journal of Laws no. 33, item 166 with further amendments).

The European ADR agreement concerning the international carriage of hazardous goods by road.

1907/2006/WE Ordinance concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EWG) No 793/93 and 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EEC and 2000/21/EEC, with subs. changes.

2015/830 Commission Regulation (EU) of 28 May 2015 amending Regulation (WE) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

2008/98/WE Directive of the European Parliament and of the Council of 19 November 2008 on waste and repealing certain Directives.

94/62/WE Directive of the European Parliament of 20 December 1994 on packaging and packaging waste.

648/2004/WE Regulation (WE) European Parliament and of the Council of 31 March 2004 about detergents included later changes.

528/2012/WE Regulation (WE) European Parliament and of the Council (EU) of 22 May 2012 regarding available on market and use of biocidal products.

15.2 Chemical safety assessment

The safety assessment for the mixture is not required.

Section 16: Other information

Clarification of aberrations and acronyms

PBT	Persistent, Bioaccumulative and Toxic Substances
vPvB	very Persistent and very Bioaccumulative Substances

Trainings

SAFETY DATA SHEET

Before commencing working with the product, the user should learn the Health & Safety regulations, regarding handling chemicals, and in particular, undergo a proper workplace training.

Reference to literature and sources of data

The sheet has been developed on the basis of the manufacturer's data sheet, literature data, Internet databases as well as own knowledge and experience, with special regard to applicable legal regulations.

Other data

Classification was based on data on hazardous substances calculation method under the guidance of Regulation 1272/2008/WE (CLP).

Date of update: 01.01.2020

Version: 2.1/EN

Changes: 3.2

This SDS annuls and replaces all previous versions

The information above is based on a current available data concerning the product, but also on the experience and knowledge in this field of the producer. They are neither a quality description of the product nor a guarantee of particular features. They are to be treated as aid to safety in transport, storage and usage of the product. That does not free the user from the responsibility of improper usage of the information above and also of improper compliance with the law norms in the field.
